

Autumn Test 7

Questions, Answers and Topic Information

Read the following instructions or press 'play' ► and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 20 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ■■ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.

► Now we are ready to start the test.

	Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.		
1 Write in digits the number two hundred and twenty-seven.	227	NPV
2 What is the sum of eighty-two and eleven?	93	AS
3 How many right angles make a three-quarter turn?	3	PS
4 Multiply eight by eight.	64	MD
5 How many centimetres are there in one and a half metres?	150	M
6 What is fifty-five more than twenty-five?	80	AS
7 Write the number that is one hundred less than five hundred and eighty-one.	481	NPV
8 Divide three hundred and twenty by ten.	32	MD
9 What is seven hundred and fifty-one minus forty?	711	AS
10 Write one-tenth as a decimal number.	0.1	Dc

For this group of questions you will have 10 seconds to work out each answer and write it down.

11 Three times fifteen is forty-five. Write a division that makes use of this information.	45 ÷ 15 = 3 or 45 ÷ 3 = 15	MD
12 Look at your answer sheet. Write the missing number in the sequence.	$\frac{4}{5}$	F
13 Look at your answer sheet. How much would it cost for one adult and two children?	£2	AS/M
14 Look at your answer sheet. Tick all the prisms.		PS
15 What is eighty divided by four?	20	MD
16 Look at your answer sheet. Circle the largest number.	4532	NPV
17 Write the month that comes two months after October.	December	M
18 A square shaped lawn has a side length of ten metres. What is the distance all the way around the lawn?	40 m	M
19 A tower is ninety-eight bricks tall. If Bob makes it thirty-five bricks taller, how tall will it be?	133 bricks tall	AS
20 How many twenty pence pieces are there in five pounds?	25	M

Now put down your pen or pencil. The test is finished.

NPV = Number, place value AS = Addition and subtraction MD = Multiplication and division F = Fractions
Dc = Decimals M = Measurement PS = Properties of shapes PD = Position, direction
